

## There are a number of additional ways to experience Singularity University.

### **Innovation Partnership Program**

This program convenes c-level executives from Fortune 500 companies to explore how to transform their businesses into disruptive organizations. The three-year membership includes Awareness, Application and Action activities throughout the year and actively fosters collaborations between members.

### **Executive Program**

This six-day program takes an audience of action-oriented executive leaders from corporations, startups, nonprofits, governments and academic institutions through a deep dive into exponential technologies and trends. The Program is highly interactive and provocative and often results in both personal and professional transformation.

### **Exponential Conference Series**

Explore the intersection of Singularity University's perspectives on emerging trends in future-shaping conferences focused on specific verticals such as Finance, Medicine & Healthcare, and Manufacturing, as well as our cross-industry Global Summit. Because our curriculum is multidisciplinary, participants experience far more than the "usual suspects" and learn about advances in a variety of fields that may have a disruptive impact on their industry.
