*It's not enough to simply keep up and try to survive.*

The pace of change is only getting faster. It's critical to understand breakthroughs happening across multiple industries, as disruption often comes from outside of your traditional competitive set.

*Many CEOs are unaware of the forces that will impact them in the future.*

Leaders must understand and harness the power of new disruptive business models before they're used against them (think Airbnb vs. Hilton, Uber vs. Yellow Cab, Dollar Shave Club vs. P&G).

*Singularity University helps companies stop playing defense and start playing offense.*

Through our cutting-edge curriculum and world-class faculty, Singularity University helps organizations begin to transform into agile and adaptable organizations empowered to leap into the future to drive disruption and achieve exponential results.
